39. Radio Doctor

Yahoo group: cbdxclub
Date: 2002-04-21 18:53:52 UTC
From: air83usa
Topic: 39 Message: 39

Hi All
Last week I posted a message looking
for a radio doctor and got a
message from Eric putting me in contact
with one in NY State by the
name of Tom after a few emails I sent
him my radio to have a look at
well it got there yesterday morning.By
mid-day I got a e-mail telling
me what was up with it and how much it
was going ot cost this morning
it was fixed and not only did he fix it
but also did a up grade on it
as well I can't say more than that but
if I had another radio that
needed a repair I would sent it to him
as he did more than I asked for
and went out of his way to help me. And
if anyone asked me for a good
doctor I would sent them his way as for the cost it
was well worth it
plus He cares about his work to the point of giving
you 110% instead
of just the ones who do in the door do the job and get
it out the
door and get your money.
Here is his web site if you need a repair look him up
he will try to
help you and give you 110%
http://hr2510.homeip.net:2510/

Regards
Krista

From: Lance
Topic: 42 Message: 42

Hi yall I just joined this group. I have been into cb's for about 5 years now. I have a cobra 29ltd classic mobile, a Realistic Navaho SSB base, and a Lafaette telsat 925 base. I used to by sawedoffokie which i retired and now go by Chicken Wing. I'm from bakersfield Cal. I'm usually heard on channel 15.

Chicken Wing said that, and we'll seee yaaaaa!!!!!!!

From: herbygarcia
Topic: 43 Message: 43

What is the best way for me to setup my CB w/ an amp?
My buddy is going to sell me a 100 watt linear amp he has. I know I cannot just set it up w/ any antenna. WHat is the best antenna for me to set it up with? I want to hook it up to a dc regulated power supply I got . Can I do that without frying both the cb and amp?
Any feedback would be greatly appreciated. Thanks in advance.
Herby

Hey, just a new guy. Bulletproof, on the sandy beaches of Florida, always looking for DX. I joined last night because there was no skip conditions, so I turned to the PC.I have read 68 messages tonite with no mention of DX at all. If I am in the wrong place, please tell me. I was looking for people interested in "talkin skip" . If anyone here does,my home channel is 28, but I also use 26,11,6, or any other that I here people on while I scan the band. Till then,73's From Bulletproof

Howdy ya'll. I am a new member. I go by MUD RAT here in the northwest corner of Ohio. I run a Ranger 2950, backed up by 300W foot warmer, W/D104 mic, all going out a Antron 99 ant. Nothing big , but good enough to cover the tri state area where I talk. Been talkin radio for almost 30 years now. I do happen to hit the skip waves every now and then just to see how far this setup will talk. Got lucky one time, was running a Cobra 139XLR with some help, and hit some guy in Sidney,Australia , that was cool. Oh well Hope to chat with the group some time soon. Todd

Hi all,

I have recently revived my long dead intrest in C.B radio. As a kid, I had given in to the craze and did not have a good time of it. I had a speech impediment and got abused all over the air. I don't have my equipment anynmore, but have suddenly found the intrest rekindled. I would imagine it is much more pleasent to be on a C.B. now then it was in the late 70's, when it was a national short lived craze and everyone and their uncle was on the air. I'll bet that was a dark time for truckers and longtime C.B.ers. I'm surprised no one took out a contract on C.W. McCall, LOL.

Anyway, I have to start from scratch and am considering a quality walky talky to see if the interst holds. However, I have noticed that it is harder for a would be C.Ber to find equippment. I have only seen one or two new base stations on the internet, and they are often in a price range I would not care to pay for a sentimental journey. Do any of you hook up mobile rigs at home? I figure if the desire continues after a while on a handheld, I'll spring for the anntenna. Being from NYC, I never learned to drive, but now being almost 37, and having a longtime girlfriend near D.C. I realize it is time. I figure if I go past the walky talky stage, I'll erect an anntena and use a mobile rig in the house, eventually tracking down a base station and switching the mobile to the car. I regret throwing out my antenna but not my old rig. My mother had tried to convince me to hold out for the new 40 channel radios, but I just had to have a C.B. yesterday back then, so I was stuck with 23.Back then, every neighborhood in the Apple had claimed a channel as their own. Middle Village, Queens, where I grew up, had laid claim to channel 6. I understand the FCC no longer tolorates such antics. As I said, I am sure that the airwaves are a lot less chaotic then they were back in 1978.

I am going to enjoy being a member of this group and any advice will be much appreciated.

Michael

It makes the recieving signals low/high pitch sound to it. it's kinda worthless.

Yes 11m is still going even if it is a bit quiet lately.
27.555 USB is active around midday.
Sunspot activity is dropping but should be more active again in
around 5 years.

136. General Stuff about DX and Cb

Yahoo group: cbdxclub
Date: 2004-08-19 12:12:57 UTC
From: Rob
Topic: 136 Message: 136

Hi all,

It's good to see a group about CB DX, as you know some of us live on it.

A few years back I was working (from Australia) into New Zealand, Hawaii (Hi 1502!), France, Indonesia, New Caledonia and Micronesia with ease. In the summertime in the North of Australia the Skip just pours in - sunspots permitting of course.

I used to run a Washington Base with 15 watts into a Box quad, about 25 feet in the air. This may seem a small setup to you, espacially in the days of 1.5KW kickers (do they have a government health warning?), but my secret weapon was a speech processor that kept my voice up and powerfull.

I was alway scared to turn that Base up in power as I was already driving soething like 100% duty cycle on sideband, but it never missed a beat.

I miss the Washington Base these days. It was a phenomenol radio.

Currently I have an AX144 (similar to a PC122), a HR 2510 and ... heh.. a few PLL02A Chassis radios that call to me to slice some copper tracks.

We also have a UHF CB with access to repeater stations that often be heard over about 30-40 miles away. Unfortunately 30-40 miles is a large catchment area for idiots.

Anyway, pleased to meet you all !

163. Galaxy DX-99V FOR SALE NOW

Yahoo group: cbdxclub
Date: 2005-03-29 19:52:32 UTC
From: gary_russell_co
Topic: 163 Message: 163

Hi everybody,

I may be new to this Bulletin Board but I have been reading (and putting to use) the CB Tricks website for years.

I tried to sell this nice Galaxy 99 on eBay but eBay cancelled the auction and sent me an e-mail stating the "Galaxy 99 no longer meets eBay's guidelines for items allowed to be sold on eBay, if you have more questions, see www.fcc.gov".

I guess IT IS possible for a radio to be "so good it's illegal".

Anyway, I know everyone on here knows what it is, and what it can do, so I won't repeat it here.

I will, however, give a Weblink where you can view the original auction page and see pictures of the radio. It is in a 9 out of 10 condition, I only used it in my truck for 6 months, and always took it inside the house when I was done with it.

Here's the link to read the details about it:

My Webpage showing: Galaxy DX-99v For Sale:

http://www.boomspeed.com/garyburke/Galaxy_DX-99v_Auction.html

I will wait for the best offer. I paid $280 new. Minimum price is $130. That's a bargain for a Galaxy 99!

I guarantee the radio works fine or you may return it within 7 days for a refund (less shipping expense - refund issued within 30 days).

E-mail your offers and questions to: radiofreecolorado@...

Thanks guys and 73's,

Gary Burke

The Galaxy DX-99v being offered for sale is now up for auction, so you may be able to get an even better deal!

The auction may be viewed at:

http://page.auctions.shopping.yahoo.com/auction/89694334

Or by doing a search for "Galaxy CB" in Yahoo! Auctions, it will be the listing saying it is 6 months old.

Auction ends Sunday night.

Topic: 178 Message: 178

I have to tell you, after getting burned on used equipment a couple of times on ebay, I have found this shop to be a G-d-send to this hobby enthusiast. I highly reccomend his shop. He knows his stuff. He has been in the business since the 1960's. Yeah, it is hard to believe but I ran across an actual shop that specializes in CBs. The gentleman who owns it, Dave Wood, has repair services, New Gear (the latest), absolutely great used equipment, scanners, ham stuff, antennas, shortwave recievers, and all the accessories one would need to have a nice shack. I bought a used mint GE SUPERBASE from him and it is a great radio. The customer service he offers is always above and beyond. His shop is a haven for Cb'ers to chat. This testimonial is unsolicited. I just wanted to give folks a heads up. His shop is called CASCADE CB. It is located in Lynnwood Washington. (17602 HWY 99 LYNNWOOD, WA 98037.) (425-742-9891) (M-S 9-5) He also does alot of mail order. Check him out!!! He is awesome as his the shop!! Heck he even has free coffee and a wonderful store dog! (On weekends I've seen free doughnuts!!)

OK, I have a GE Superbase with a epm-27 pre-amp for receiving and a shure power mic. I have a thick fiberglass antenna which was on my house like a flagpole. I just moved it today up on my roof. A big difference, but a couple of times, the AW1 light comes on and the cb acts a little erratic. Then it goes away. It has happened three times. Once when the antenna was moved, and twice since. Any thoughts on this are appreciated. Please note that I am not a techie and would not be able to go into the radio. I have a dealer I could take it to if necessary. Any thoughts?
Dan

From: Johnny Delakeyaza
Topic: 186 Message: 186

FOR SALE:

This is the following for sale as follows,

- CB Radio- This radio is a classic radio. It is a sparkomatic radio I found from another friend of mine and he is selling it for $100

- CB RADIO- This is another cb radio for sale from RadioShack. It is TRC-503. Payed $70 at radioshack. But selling for $60 because of a broken fuse. Other than that it is brandy new I've used in once then the fuse blown. Comes with manuel and microphone.

-Ham Radio Transmitter- This radio is a 2m radio for sale. Only one problem it does not have a radio pack there very cheap and you get one for $10- for order. I'am selling this for $65- Comes just with the radio.

-Mag Mount Antenna- This is a genral antenna for all uses. Transmitts on 50Mhz up to 1300 MHz Works good! About a 7 out of 10. Selling for $25-

-Wire Antenna- FREE!! You just pay shipping

-2Rubber Duck Antennas- Payed $30 for both. Selling for $15-

YOU PAY FOR SHIPPING!!! IF YOU WOULD LIKE THIS PACKAGE IT WILL SELL FOR $230.

DOES NOT INCLUDE SHIPPING AND YOU PAY FOR SHIPPING
PLEASE SEND A EMAIL BACK! THANK YOU JOHN

207. Looking for a used converted RCI 2995DX base radio

Yahoo group: cbdxclub
Date: 2006-01-11 13:22:54 UTC
From: Lee
Topic: 207 Message: 207

Hi Folks,

I am glad to be part of your yahoogroup! Was licensed
40 yrs ago, when FCC issued CB radio licenses. I am military
retired and looking for a nice used DX Base radio. I had the
chance to purchase a converted Ranger RCI-2995DX rig for a very
good price, but waited too long, and it got sold. Anyone out
there know of this type of radio up for sale? If so, please let
me know, thru my personal email address, and we can talk futher.

73's to all !!

Dan,
Back in the late sixties, when everyone was required by the FCC
to have a CB radio license, I was issued the call sign, KCY3916..
Was in high school at the time and framed it on the wall next to
my base unit, which was a tube type radio. The station was up
on a nice hill.. The RF output power was only 5 watts PEP..
Used a simple ground plane and was able to talk over 1,000 miles
away, when the sun spot cycle was active.. I miss those days!!

73's to all !!

Topic: 216 Message: 216

THIS STOCK IS UNDISCOVERED ST0CK GEM (MDEX.PK)

Watch out the st0ck go crazy on Monday morning

February's Feature Company...
Madison Explorations, Inc.
Symbol: MDEX.PK
CURRENT SHARE?PRICE?$0.36
?

Madison Explorations, Inc. (MDEX.PK; $0.36) S.T. Target $2.75

Madison is incorporated in Nevada. Shares trade in New York under the ticker symbol MDEX. Current price per share is just 36 cents, nearly 300% above its September low. Opportunities as clear and sparkling as this one come along rarely. Carpe diem!

There are those rare times when the decision to invest in a particular stock or industry is a no-brainer: homeland security in the wake of 9-11, gold in the fall of 2001, and China in early 2002, for example, to name a few prescient calls. The Canadian diamond industry and diamond explorer Madison Explorations present us with just such a unique opportunity.

Canadian Diamonds: An Industry in the Rough
Canada is entering only its sixth year as a diamond player, but already it's the world's #3 diamond producer, behind Botswana and Russia. From 2002 to 2003, Canadian diamond production more than doubled to 11.2 million carats. In a very short time, Canada has gone from a non-entity in the diamond biz to a supplier of about 15% of the world's rough diamonds. Today, nearly half of all funding for diamond exploration goes to Canada.

Even more impressive than the huge growth itself is the fact that that huge growth has come on the strength of just two active diamond mines: Ekati, jointly operated by Dia-Met and BHP, and Diavik, jointly operated by Aber and Rio Tinto. Tahera's Jericho Mine will go online next year. Snap Lake, a joint venture between De Beers and Winspear - is slated for full production in 2007. It will propel Canada passed Russia into the #2 spot amongst the world's diamond producers - with just four active mines! In terms of end-market, Canadian diamonds have a crucial advantage over the competition: Unlike diamonds from Angola, Liberia, and Sierra Leone, for instance - "blood diamonds" used to finance bloody political conflict, Canadian diamonds are "clean." Consumers' preference for clean diamonds is one of the reasons Tiffany struck a deal with Tahera to buy or market all the diamonds Tahera's Jericho Mine produces. Tiffany refuses to sell "blood diamonds."

Madison Explorations: An Investor's Best Friend
The Northwest Territories has been the preferred target area for diamond explorers. Shore Gold's discovery of a 19.7 carat rock at its Star Diamond Project last year intensified exploration in Saskatchewan, the second most active exploration area in the Northwest Territories as measured by money inflows. Madison Explorations is the most active explorer in Southern Saskatchewan. That includes the De Beers-Kensington partnership. Madison's primary area of exploration is Scout Lake, which, according to the Saskatchewan Geological

Survey, is one of the two most promising diamond areas in the province. That conclusion confirms the work of Dr. Joseph Montgomery, the director of five mining companies and Madision's lead diamond explorer. Dr. Montgomery has spent more than a decade surveying the area. He is a person of considerable expertise and is exceptionally well regarded in the metals and minerals discovery business. Dr. Montgomery has been involved in more than 300 prosperous mineral explorations all over the world, including projects for Diamond Fields. Based on his ten years surveying Scout Lake, Dr. Montgomery believes it is one of the most promising diamond locations he's ever seen and that the area could be home to the largest diamond deposit in the province

Madison is the only active explorer in Scout Lake, which, from a geological standpoint, has many of the same characteristics as Fort ? la Corne, where Shore Gold made last year's spectacular discovery. Madison is currently exploring two other potential diamond properties in Southern Saskatchewan, Bulls-eye and Bronco. The results of early indicator studies at both properties have been very favorable.

Winspear, Dia-Met, and Aber each partnered with a more senior diamond producer. Madison is currently the only active explorer in one of the most potentially diamond-rich regions within a national industry that is experiencing dazzling growth and whose full potential is only just now being tapped. We would not be surprised to see Madison follow the trend and partner up with a De Beers, for instance. In the meantime, look for additional diamond property acquisitions and discoveries by this aggressive upstart - and for substantial share price appreciation over the mid- to long-term.

218. NEW Monitoring Station Licenses & Call Signs!

Yahoo group: cbdxclub
Date: 2006-02-24 19:04:10 UTC
From: Bee-Ware Productions
Topic: 218 Message: 218

Are you happy and proud to be a CB operator? Do you also have other radio obsessions like Police Scanners, Shortwave, Ham, AM-DX, FRS, etc? Recently there has been a tremendous amount of renewed interest in once again being able to obtain Monitoring Station Licenses and Call Signs to hang on the wall of your "shack", office, bedroom, etc.

Due to overwhelming demand, the IRRMS, (International Registry of Radio Monitoring Stations) was created and has begun to issue Monitoring Station Licenses and Call Signs for any type of radio operator or monitor. These are newly designed and professionally printed on beautiful Parchment Certificates. When framed and hung on the wall or set on a desk, they give both you and your station a polished and professional look that you will really be proud of.

They come personalized with Your Name plus several options for Call Signs. You can choose your existing Call Sign, a custom one of your own making, or have a Registered Call Sign issued by the IRRMS. If you want to see what they look like just click on the link below. NOTICE: The picture that you see will be updated soon. The Certificates have been recently updated with even nicer Radio Tower graphics, a new IRRMS Logo, and with larger and higher quality Embossed Gold Seals. When you order you will receive the newer, updated Certificates. Take a look. You won't believe that this kind of custom quality costs only $6.95 each!
Thank you!
Bee

Topic: 220 Message: 220

Just FYI... the new pic of the updated Monitoring Station Certificates is up if you want to take a look and see the difference from the old ones. The pic still isn't that great because eBay reduces the resolution to save bandwidth no matter how high the resolution is on the pic that we submit to them.

Soon, IRRMS will have a web page up where you will be able to view large, high res pics of the Certs. Thanks!
Bee

"Gee, the Uncle gave me a very personalized call sign when I passed my test." :)Scott in Baltimore

Scott, Due to an apparent lack of pertinent details in your response we just might have to assume that you are referring to some dubious accolade that was bestowed upon you just after dropping off your latest urine sample at the Doctor's office!

All seriousness aside, Congratulations Scott! I'm sure that whatever Call Sign you are referring to was well earned and I'm sure that you are very proud of it. Unfortunately, not every single facet of this wide-ranging radio hobby of ours issues a Call Sign, or a License, or even an appropriate "Atta Boy" (slap on the back) to signify any one of a number of accomplishments that one incurs along the way... nor should they!

I personally earned my first Ham Call Sign back in 1975 when it was still mandatory to learn how to send and receive Morse Code plus I had to answer about 3 Million questions on Electronic Theory and Practice in order to get an Amateur Novice License. At the time, that allowed you to TX in CW on a handful of obscure and overcrowded Novice freqs out there somewhere in a wafer thin slice of the frequency spectrum that seemed to be thinner than air and harder to separate than all the filters that you could filter your filters with!

And even though Uncle only sent me a little card the size of a match book, yes I was damn well proud of it. Not because of what I had to endure to get it, but because for 10 years prior to that I managed to earn my stripes by dissecting AM Car Radios out of the local Junk Yard and re-tuning them out of band in order to pick up local Police Calls which were then situated just above the Standard AM Broadcast Band!

You see Scott, whether you are bouncing radio signals off of Mars, AND/OR just sneaking a listen into your neighbor's bedroom via their Baby Monitor, then this isn't Brain Surgery! No, it's a great hobby and a whole lot of fun to boot! Whatever your Digital Delight, be it Scanners, Shortwave, Ham, Bacon, AM-DX, CB, GMRS, FRS or MURS etc., you deserve to have your passion for the radio hobby immortalized forever!

And Scott, as a reward for your thought provoking response, if you will send me your Name, Address, and your Call Sign I will send you a FREE 8 1/2 X 11 Station License Certificate to hang up on the wall of your personal radio "shack!"

As for the rest of you, why not get yours now instead of waiting to read a post some day that says, "Hey, does anybody remember back when you could get a Custom Printed Monitoring Station Certificate & Call Sign?"

This campaign is about Human beings, Democracy, UNHCR, Refugees, The Iraqis, Islam, Kurds, Human rights, Respect, Money, Donations, Angelina Jolie, Pavarotti, Giorgio Armani, Donors, Peace, History, Campaigns and about you if you care about these words.

Hi there,

I am SAM, an Iraqi refugee living in Lebanon at the moment; I have spent the last 10 years of my life as a refugee registered with the UNHCR in Beirut. The last 4 years, I have spent as an activist for peace and human rights (especially refugees and asylum seekers) on the Internet; I'm also books author and ebooks publisher. I have launched many campaigns to improve our situation as refugees in Lebanon and hopefully bring more understanding to our problems worldwide. I helped make many changes and improvements at the UNHCR office in Beirut; I used the Internet as the field for my activities (you can read more about that in my free ebook 'MY CAMPAIGNS'). All my ebooks are free and could be download from my sites.

This is my newest campaign, it's about the illegal and humiliating actions of the UNHCR, who using photos of refugees as banners and human-buttons to collect money. This is an abuse of the dignity and humanity of the refugees and must stop immediately and a clear public apology present by The United Nations High Commissioner for Refugees. My friends, I am talking about the pictures you can see here:
http://unhcrlebanon.kogaryu.com/human-buttons.htm

Also you can read my new campaign 'Urgent, we need smile' here:
http://News.net4free.org/lebanon/email_me.htm

For more info about UNHCR and life of refugees you can read my free ebooks. I invite you as fellow humans and members of the world community to support my campaign by reading my article on my site and see the human-buttons. The campaign is to support and improve the UNHCR http://www.unhcr.org especially after the last scandals in the UN and UNHCR, just for example: http://www.mizzima.com/archives/news-in-2005/news-in-april/12-April05-22.htm

"We make demonstration and fast because the UNHCR office in Cairo did nothing for our problem..." http://news.bbc.co.uk/2/hi/africa/4440730.stm

Together we will build better world.

You could reach me fast via this form: http://unhcrlebanon.exactpages.com/email_me.htm
and if you like to know more about me, you can google for my name 'osam altaee'.

Thanks

it depends on the condiitions where you live.you might
even be over shooting some areas.plus remember the
higher up your Anteena is means its easer it is to
attract lighting.I was up at about 80ft til wind got
my antenna & pole.best hight is at 40ft.I have talked
more on 40ft than I did at 80ft.plus position counts
too.I have talked to England & Iceland on just a 30ft
pole a Palomar skipper 300.unit 554 Northern Alabama

The"Nashville Rebel"' owner of the White Squirrel CB Radio
Club,invites all interested prospective members to sign up
for the clubs email membership message board.
Nashville Rebel validates the continued usefulness of CB
radio and the commitment of the White Squirrels membership in his own
extremly moving account, as follows:
Last year I was contacted by a lady that was seeking help
in locating
her husband. He was a truck driver and she was trying to get a
message to him and let him know that his mother had suffered a severe
heart attack and had only hours to live. He was supposed to be in the
Virginia area. I sent a message to all my members to attempt to
locate the driver using his CB handle and name of the company he
worked for.Many of the members got on their CB's and someone was able
to contact the driver in Kentucky 13 Minutes Later. He was able to make
it home in
time to kiss his mother goodbye before God took her away.

271. New to the group, not new to the hobby.

Yahoo group: cbdxclub
Date: 2006-07-12 22:38:32 UTC
From: Eric "Extreme" Goldberg
Topic: 271 Message: 271

The Name: Eric Extreme
Age: almost 27
The Call Signs: Extreme Radio, Extreme, Planetary SKIPshooter 717, 717 Central Massachusetts, 2SF1701, AE813, Outlaw 717, QS1701, CDX717, & RF717.
The 20: Auburn, Massachusetts (right outside Worcester)
The Base: Galaxy DX 95T w/ Astatic D104 w/ Spectrum 1600 5/8 Wave Lambda Aerial
The Mobile: Galaxy DX 95T (Long trips and DXing) and Midland 75-822 (local road travel) w/ Fatboy preamp. With the Midland is a Palomar Wasp.
Years in the hobby: 14

I first got into the hobby about 14 years ago. I never had a serious setup until about 2002.

I have a moderately long history of how I got into the hobby and some memories on my website which you can find at http://www.ExtremeRadio.us . The history is under the section "Extreme Radio".

I recently started up a DX group called Planetary SKIPshooters. You can visit the site at http://www.SKIPshooters.com

Perhaps I have QSL'ed with some of you on the band, and hope to catch more of you on the radio in the future.

272. The rebirth of American Eagle SSB CB□ers Club

Yahoo group: cbdxclub
Date: 2006-07-20 16:08:04 UTC
From: Eric "Extreme" Goldberg
Topic: 272 Message: 272

It is with great pleasure that I announce the rebirth of the American Eagle SSB CB'ers Club.

The club was originally started in 1982 by Dave (AE001) and his father Mickey (AE002), both who now reside in Wellington, Maine. The club has accumulated just about 930 members over the years.

In 2003 the club ceased daily operations until new management could be established, as the management in place at the time no longer desired to manage the club due to changing interests, and abandoned the club without finding new leadership to succeed them.

I am announcing that after 3 years of inactivity the club has new leadership and will resume operations.

After a freak happenstance meeting and resulting discussion, Dave (AE001) the founder of the club and I will be reopening the club and I will be assuming the day to day operations of the club. Dave has assigned me the call sign (AE003.)

American Eagle SSB CB'ers Club, founded by Dave (AE001) and Planetary SKIPshooters (http://www.SKIPshooters.com), founded by Eric (AE003 & Planetary SKIPshooter 717) will be run as sister clubs. That means if you join either of them you will be joining both of them (refers to new membership applicants).

I have designed a new website for the club which includes a message board for the members to communicate with each other. The new website may be found at http://www.AmericanEagleCB.com .

I invite all current members and prospective new members to visit the website.

73, and I hope to catch you all on the airwaves.

Eric "Extreme" Goldberg □ AE003
Director of Operations
American Eagle SSB CB'ers Club

The"Nashville Rebel" owner of the White Squirrel CB Radio Club, invites all interested prospective members to sign up for the clubs email membership message board. Nashville Rebel validates the continued usefulness of CB radio and the commitment of the White Squirrels membership in his own extremly moving account, as follows:

Last year I was contacted by a lady that was seeking help in locating her husband. He was a truck driver and she was trying to get a message to him and let him know that his mother had suffered a severe heart attack and had only hours to live.
He was supposed to be in the Virginia area.
I sent a message to all my members to attempt to locate the driver using his Name, CB handle and name of the company he worked for. Many of the members got on their CB's and someone was able to contact the driver in Kentucky 13 Miutes Later,
He was able to make it home in time to kiss his mother goodbye before God took her away.

Converted ham/cb radios for sale, Forest,Oh
I have 3 RCI (Ranger) ham/cb radios for sale.
2 of the Rangers are 2970's.The 3rd is a 2990 base station.
All 3 are peaked, and converted. The 2990 has a separate 100 amp power supply. Silver eagle d-104, and sadelta mic included. The 2970's have the channel changing stock mics. All 3 for $1,000.00. FIRM. May consider separating them. But don't know how I'd price them. Make offer, we'll see? Have an
amp meter to go with them &/or check output. But no antenna on the house, or on a vehicle. All 3 work quite well, booklets included, and conversion charts. Any questions or if you need pics, I can take them, and e-mail them to you. These would almost have to be picked up as it'd cost a fortune to mail, the weight would be close to, or over 100#s (you'd have to pay shipping from 45843)
Thanks Sue

how good is that? Just phoned these fellows 1 801 697-0461 and they got me fully
accredited at an overseas uni in less than a month! Very happy right now.

340. I still need to sell the Ranger/rci radios. Forest, Ohio The ad

Yahoo group: cbdxclub
Date: 2007-03-18 16:47:50 UTC
From: Sue S
Topic: 340 Message: 340

Converted ham/cb radios for sale, Forest, Oh

I have 3 RCI (Ranger) ham/cb radios for sale.

2 of the Rangers are 2970's.The 3rd is a 2990 base station.

All 3 are peaked, tuned, and converted, with variable output. A.M., F.M., Upper & lower S.S.B. These are sweet radios to use, frequency range is 2600-3200 mghtz. The 2990 has a separate 100 amp power supply. Silver eagle D-104, AND Sadelta echo mic included. The 2970's have the channel changing stock mics. All 3 for $1,000.00. FIRM. Will consider separating them. $300.00 for 2970's (each). $550.00. for the 2990, mics, power supply, and an amp meter. No antenna on the house, or on our vehicle to double check outputs, but all 3 worked QUITE well when stored. Can have outputs checked in semi, if requested. But guaranteed NOT DOA. Booklet included, has freq, read outs, along with reg. cb channels. Any questions ask. If you need pics, I can take them, and e-mail them to you. These would almost have to be picked up as it'd cost a fortune to mail, the weight would be close to, or over 100#s for all 3. Serious inquiries I can weigh on bathroom scales, zip is 45843

Thanks;

Sue

Took me just 2 weeks to get my accredited Masters in this course. Already in line for an interview on monday to hopefully get a better position within the place I work at. Didn't even have to buy and books, go to any classes, or take any exams. Honestly, if anyone here is looking to move up in this world and get something like I did I suggest you use the same people I did; here is the details 801 697-0461

Hey girlfriend, its been a while since we last talked, i remember when you came and visited we had they threesome while camping, it was sooo good, then we laughed at jeff as he was saying size doesn?t matter lol, damn men don?t know what they are talking about, anyway just wanted to let you know that he ordered some enlargement pills online from a website called http://www.auhua.net/ddav and now he is 3 inches bigger!!.. maybe you should look into this for Bruce since he is only average size.
Ok babe, take care and lets do it again sometime, will be more fun if the males are bigger :)
Love Jane.

All the girls out there are totally lying when they tell you that size does not matter. Want proof?
I am telling you this because it is the honest truth, look I should know, they say that it is all in the way you use it, not how big it is, well I got news for you all, that is pure lies.
I know from personal experience, I will tell you about a secret that Joey has made me promise to never ever tell anyone, but since he has not called me in three weeks after standing me up, I am going to break the promise and tell you how he went from having a tiny wang and in 4 months he is now about nine inches and get this, it is still getting bigger. He has been secretly taking grow pills from this site http://www.auleg.net/mbzg

Hey John, it was really fun going out the other night and talking, while we were out you said that you felt insecure about your manhood, i noticed in the toilets you were quite small in that area :) , but not to worry.. that website that i was telling you about is my secret weapon to an extra 3 in, trust me.. girls love bigger ones, i?ve had 5 times as many chicks since i used these pills a year ago. The package i used was the 6 month supply one, and its worth every cent and more.. the website is http://www.auleg.net/krzx
Ring me on the weekend and we will go out and drink again and let you know some more secrets :).
Later dude, Brad

I know some buddys who have met a few nice honey's off of this kind of thing (here is the place they used: http://gitadate.com/meet/ace21/ , but what do ya think? I think it is mad cool from what I saw at my buddy?s house, and iam thinking of signing up later today. Basically it's a regular personalssite, but with an instant message and Webcams system built in. Basically you join their chat-room on their site it gives you a link to those people online in the chat-room, their location, their picture, etc and at one click you can start chatting to them over Webcam (even if you don't have one). Pretty nifty stuff I think!

Just imagine in adding
4 inches to your peniis with this amazing method.
This is not some scam to take your money and not
provide you with results but a very true honest way
to add 4 inches in no time. You owed it to yourself
to try it out you can find out the complete info here
http://www.carsce.com/jivn I know there is a lot of peniis enlarging advertisements
going around on the internet but personally I have tried it myself
and I am very happy with the results please try it out and if you
are not satisfied you can get your money back..

Converted ham/cb radios for sale, Forest, Oh

I still have 3 RCI (Ranger) ham/cb radios for sale.
I have been watching on ebay, prices are fair.
2 of the Rangers are 2970's.The 3rd is a 2990 base station.
All 3 are peaked, tuned, and converted, with variable output. A.M., F.M., Upper & lower S.S.B. These are sweet radios to use, frequency range is 2600-3200 mghtz. The 2990 has a separate external 100 amp power supply,it has to use. Silver eagle D-104, AND Sadelta echo mic included. The 2970's have the channel changing stock mics. All 3 for $1,000.00. FIRM. Will consider separating them. $300.00 for 2970's (each). $550.00. for the 2990, mics, power supply, and an amp meter. No antenna on the house, or on our vehicle to double check outputs, but all 3 worked QUITE well when stored. Can have outputs checked in semi, if requested. But guaranteed NOT DOA. Booklet included, has freq, read outs, along with reg. cb channels. Any questions ask. If you need pics, I can e-mail them to you. These would almost have to be picked up as it'd cost a fortune to mail, (buyer would have to pay shipping) the weight would be close to, or over 100#s for all 3. Serious inquiries I can weigh on bathroom scales, for approx. weight
zip is 45843
Thanks;
Sue

Topic: 453 Message: 455

Hello,

The RCI Ranger Radios are excellent ham radios
for 10m, 12m, and 15m bands, which you need an FCC
Ham License to operate. If it is modified for 11m or CB,
and you do NOT have a FCC Ham Radio License, then
you're NOT allowed to operate 10m, 12m, and 15m.. If you get
caught, you can face fines up to $5,000 per day and
face federal prison time up to 10 years..
Another words, citizen band is only allowed to use 26.965 to 27.405 MHz.
If you do NOT have a HAM LICENSE you are not allowed to operate on:
10 meter => 28.000 to 29.700 MHz
12 meter => 24.890 to 24.990 MHz
15 meter => 21.000 to 21.450 MHz

73,

Lee

This is just awesome guys! I finally got around to graduatin and I didn't even have to turn up a single day this time around to get my final credit points. Now I am fully qualified in a BA and on the hunt for a new job! I'll let you guys know how I do, but just thought I'd mention this now since they helped me out. If any of u interested in getting a BA or something similar without having to go through all the hassle they put you through in US institutions give these guys a call 1 770 621-2634 . They got me through in around a month.

WHAT A GREAT IDEA!
We provide a concept that will allow anyone with sufficient work experience to obtain a fully verifiable University Degree.
Think of it, within four to six weeks, you too could be a college graduate.
Many people share the same frustration, they are all doing the work of the person that has the degree and the person that has the degree is getting all the money.
Don't you think that it is time you were paid fair compensation for the level of work you are already doing?
This is your chance to finally make the right move and receive your due benefits.
If you are like most people, you are more than qualified with your experience, but are lacking that prestigious piece of paper known as a diploma that is often the passport to success.
CALL US TODAY AND GIVE YOUR WORK EXPERIENCE, THE CHANCE TO EARN YOU THE HIGHER COMPENSATION YOU DESERVE!
1-770 621 2634

From: uyud goyayol
Topic: 505 Message: 505

Learning to trade takes much longer than most of us
would like. How would you like to take a shortcut and
graduate early from the school of hard knocks?

When I ask the question that way, almost everyone is
ready to learn to do that. The problem is that when I
tell you whats required, youll find a reason why it
wont work for you.

510. Stock Trading Secrets?

Yahoo group: cbdxclub
Date: 2007-10-25 07:51:52 UTC
From: Velo Acis
Topic: 510 Message: 510

How often have you come across an advertisement or e-mail proclaiming to "teach" you the stock trading secrets that Wall Street Insiders don't want you to know? Usually included in the descriptions of these trading products are claims such as "Make 10K monthly in minutes per day", or "Learn the secrets of Professional Stock Brokers", etc. etc. So what are these "secrets" that they are SELLING?

And if the Wall Street Insiders and the Professional Stock Brokers didn't want to reveal these trading secrets with you, then how come the companies or individuals selling you these products are so quick to give up these "Never before revealed" techniques?

LOGO DESIGN - Quick! Affordable! Professional!
As a recommendation from a friend, I purchased the Silver Package from Concept Media Designs. I have to say I was amazed at how fast they completed my logo design, they send you 8 initial logos to choose from, then give you unlimited revisions on your favourite. I was really impressed and what's even better, they also include business card design. If any of you guys need a Logo check em out:

LOGO DESIGN - Quick! Affordable! Professional!
As a recommendation from a friend, I purchased the Silver Package from Concept Media Designs. I have to say I was amazed at how fast they completed my logo design, they send you 8 initial logos to choose from, then give you unlimited revisions on your favourite. I was really impressed and what's even better, they also include business card design. If any of you guys need a Logo check em out:

2081. FS: cb handhelds.

Yahoo group: cbdxclub
Date: 2016-02-19 07:13:26 UTC
From: goshawk on horseback
Topic: 2081 Message: 2081

hello all,
I have a number of cb handhelds to clear, as follows:
8x havard 410, 40 channel uk band. asking £30 each or reasonable offer.
1x midland 3 channel, not sure what ones though. asking £25 or reasonable offer.
1x GE 3 channel am, probably mid band, not sure which 3 channels it has. asking £20 or reasonable offer.
1x panasonic single channel, not sure if fm or am, or what band. asking £20 or reasonable offer.
4x dnt, 40 channel fm, think at least one of them is mid band, don't know which ones are which, so is going to be pot luck which band you get. asking £30 each or reasonable offer.
and 3x radioshack trc230 40 channel, not sure what band, I think mids. asking £30 each or reasonable offer.
anyone wanting to take the lot off of my hands will get a very special price.

payments by paypal, bank transfer, or cash on collection please, if using paypal, please add 4% to cover paypal charges.

if interested in any items, please either call, on 07957880038, or e-mail: goshawk_on_horseback@...

Simon
